

Schoology to Google Forms

Quiz Converter: Teacher Guide

Step-by-step instructions for moving your quizzes out of Schoology and into Google Classroom

Questions? Contact the creator:

Name	Mary Ganey
Email	maryganey188@gmail.com or marganey@iu.edu (I respond faster to the .edu email)

Overview

This guide walks you through using a free tool that converts your Schoology quizzes into Google Forms quizzes. This product handles the movement of quiz materials, if you need to move other types of materials to google drive please contact me! I am more than happy to alter the tool to accommodate the request or build another tool.

Here is what the tool does:

- Reads your quiz from Schoology (as a downloaded .imscc file)
- Extracts all questions, answer choices, and correct answers
- Creates a Google Form quiz automatically in your Google Drive

The tool runs inside Google Colab, a free, browser-based tool from Google. You do not need to install anything on your computer.

TIP

You will need a Google account (your school Google account should work perfectly). Everything runs in your browser, no installation should be needed.

What You Need Before Starting

Before following the steps below, make sure you have:

- A Google account (your school Gmail works)
- Access to Schoology to download your quiz file
- A web browser (Chrome is recommended)

Everything else is provided.

Part 1: Download Your Quiz from Schoology

BEFORE STARTING: Make sure that all of your resources that you would like transferred are located in the Home section of the Resources tab. **All files or quizzes from your different courses can be saved to the Home section** - if they are in a folder within the Home section (for organizational or other purposes), that is also fine. **You are only able to export files from the Home section of the Resources tab.**

You need to export your quiz from Schoology as an .imscc file. Follow these steps:

Step 1: Go to Resources tab (at the top of the page)

1. Click on the drop down arrow near the left sidebar next to My Resources.

The screenshot shows the Schoology web interface. At the top, there are navigation tabs: Courses, Groups, Resources, and Tools. The Resources tab is selected. On the left sidebar, under 'My Resources', there is a dropdown menu with options: Home, Learning Objectives, and Downloads. The 'Home' option is selected, and a sub-menu is visible with options: Reorder, Import, and Export. The main content area shows the 'Home' section of the Resources tab, which contains a list of resources. The resources listed are:

Title	Added by You	Added Date	Details
Lightening Thief	Added by You	Dec 16, 2025	
COE	Added by You	Mar 18, 2026	
NWT Rubric	Added by You	Oct 23, 2024	6 criteria · 18 total points
Pocahontas	Added by You	Nov 6, 2024	
Experanza Rising	Added by You	Nov 13, 2024	
Because of Winn Dixie	Added by You	Mar 13, 2025	
Island of the Blue Dolphins	Added by You	Jun 5, 2025	

At the bottom of the page, there is a footer with links: English, Support, PowerSchool Community, User Toolbox, PRIVACY POLICY, Terms of Use, and PowerSchool © 2026.

Step 2: Export the quizzes

1. Select Export from the dropdown menu.
2. Choose which folder in the Home collection you would like to export, then hit the export button on the popup.
3. Click on the blue “Transfer History” at the top of the page. (If you happen to miss the chance to click on “Transfer History”, you will receive an email from schoology that contains a link to access your Transfer History.)
4. After navigating to Transfer History, click the settings gear next to the file and click “download”
5. A file ending in .imscc will download to your computer.

The screenshot shows the Schoology interface with the 'Export Collection' dialog box open. The dialog box has the following fields:

- Export as:** Common Cartridge (IMSCC). A note below states: "Note: Media Albums and SCORM files will not be included in the export."
- Collection:** Home
- Folder:** COE

The 'Export' button is highlighted in blue. The background shows the 'Home' collection with a list of folders: Pocahontas, Esperanza Rising, Because of Winn Dixie, and Island of the Blue Dolphins. The interface is powered by Schoology.

⌵ Remove
⬇ Download

 TIP

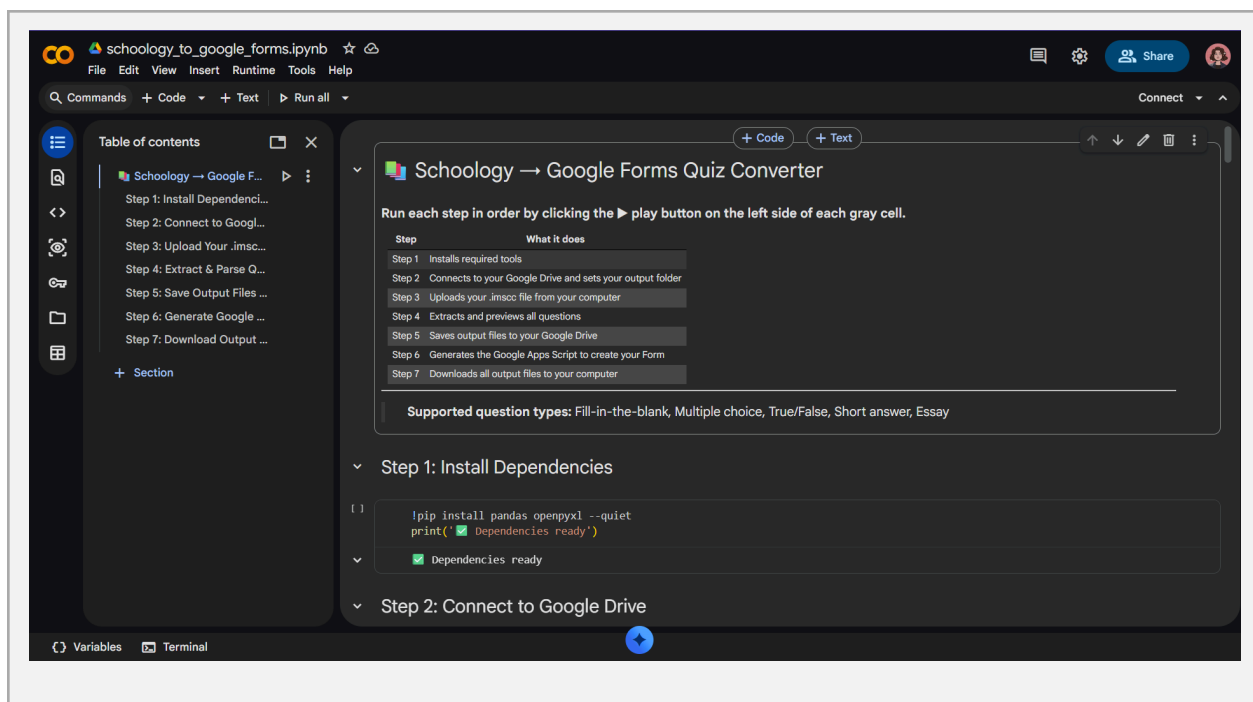

The downloaded file will have a name like folder_name.imsc and will likely appear in your Downloads folder. Leave it there for now, you will upload it in Part 3.

Part 2: Make Your Own Copy of the Converter Tool

The converter tool is saved in Google Colab. You need to make a personal copy so that you can run it and save your quiz files to your own Google Drive.

Step 1: Open the shared Colab link

1. Here is the Google Colab notebook: [Copy of schoology_to_google_forms.ipynb](#)
2. Click the link, it will open in your browser.
3. You will see a page that looks like a document with code blocks in it. This is normal!

Step 2: Make your own copy

2. At the top of the page, click the File menu.
3. Select Save a copy in Drive. (Your drop down might look different than mine because of permission settings, this is fine, click "Save a copy in Drive" anyways).
4. A new tab will open with your personal copy of the tool.
5. The file will be saved to your Google Drive under a folder called Colab Notebooks.

The screenshot displays a Jupyter Notebook titled "Schoolology → Google Forms Quiz Converter" within a web browser interface. The notebook's left sidebar shows a "File" menu with various options, including "Locate in Drive", "Open in playground mode", "New notebook in Drive", "Open notebook", "Upload notebook", "Rename", "Move", "Move to trash", "Save a copy in Drive", "Save a copy as a GitHub Gist", "Save a copy in GitHub", "Save", "Save and pin revision", "Revision history", "Notebook info", "Download", and "Print". The notebook content includes a title, a description, and a list of steps: Step 1: Install Dependencies, Step 2: Connect to Google Drive, Step 3: Upload your .jmscc file from your computer, Step 4: Extracts and previews all questions, Step 5: Saves output files to your Google Drive, Step 6: Generates the Google Apps Script to create your Form, and Step 7: Downloads all output files to your computer. The "Supported question types" are listed as Fill-in-the-blank, Multiple choice, True/False, Short answer, and Essay. The notebook is currently on Step 1: Install Dependencies, which shows a code cell with the command "pip install pandas openpyxl --quiet" and a message "Dependencies ready". Below the notebook, a Google Drive interface is visible, showing a list of files and folders. The "My Drive" section is highlighted, and the "Colab Notebooks" folder is circled in red. The list of files includes "Colab Notebooks", "REU2025", "c201 dictations", "2/16/25 c565", "3 Minute Thesis Practice #1", "4.1, 4.2 Quiz Review", "4.1, 4.2 Quiz Review", "343Lab", "A100 HW2", "A100 HW3", and "A100 HW4". A notification banner at the bottom of the Drive interface says "Sync files between the" and "Get notifications on your desktop for shared files and important events".

TIP

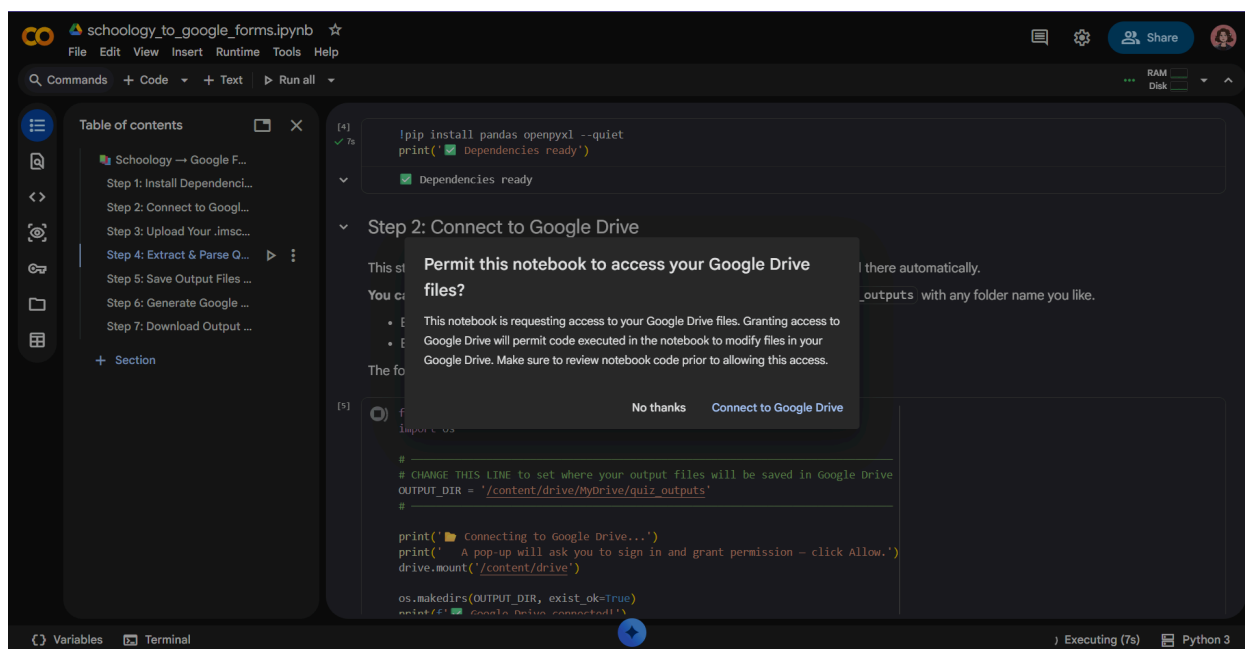

IMPORTANT: Always use your personal copy from now on, not the original shared link. Your copy is the one that will save files to your Google Drive.

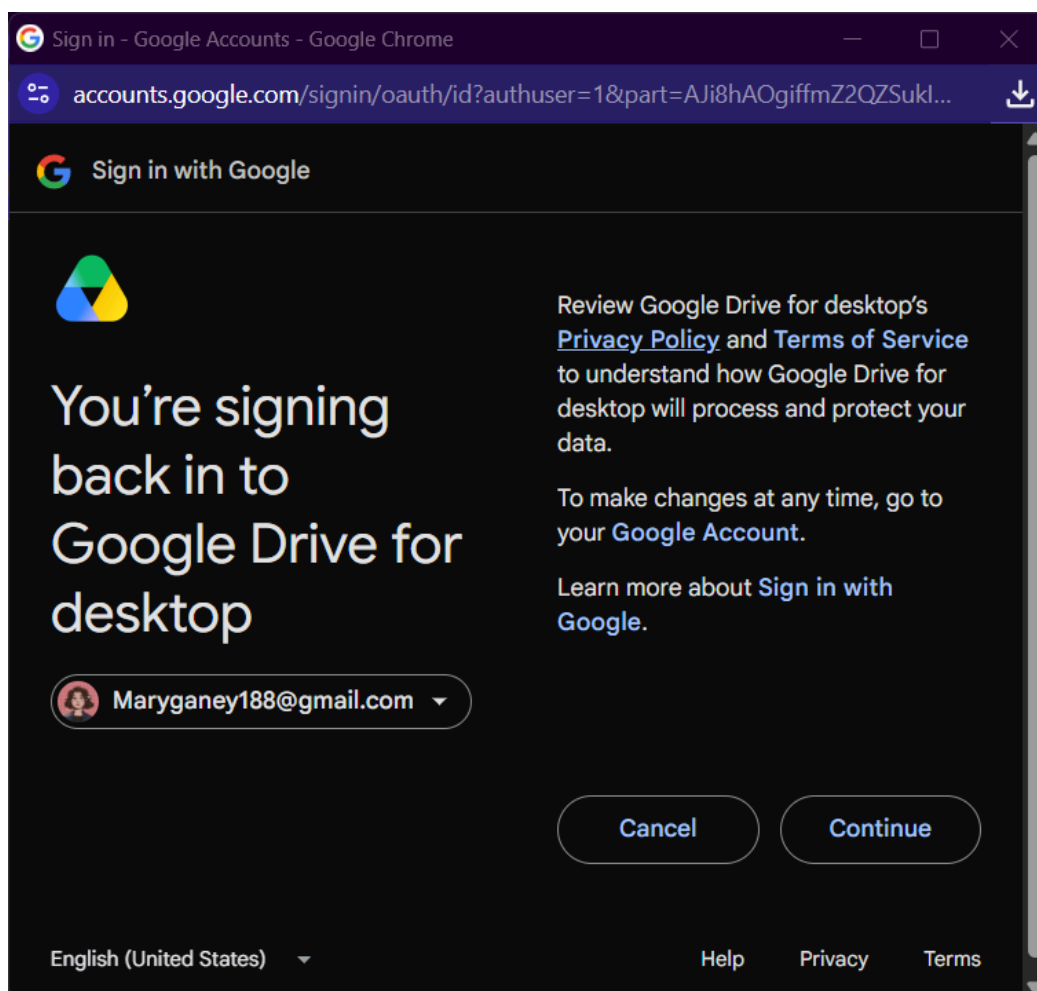

Part 3: Convert Your Quiz

Now you will run the tool to convert your Schoology quiz. Follow these steps in order, you will be running the code all at once, but must follow these steps in order from top to bottom.

Step 1: Connect to Google Drive

1. Go to the Runtime menu at the top of the notebook. Select Run all. You will now move through each cell step by step.
2. Find the cell labeled Step 2: Connect to Google Drive.
3. A pop-up will ask you to sign in or grant permission. Click Allow.
4. Wait until you see a green checkmark (warning it's small on the page) or the message: Drive mounted successfully.

Step 2: Install dependencies

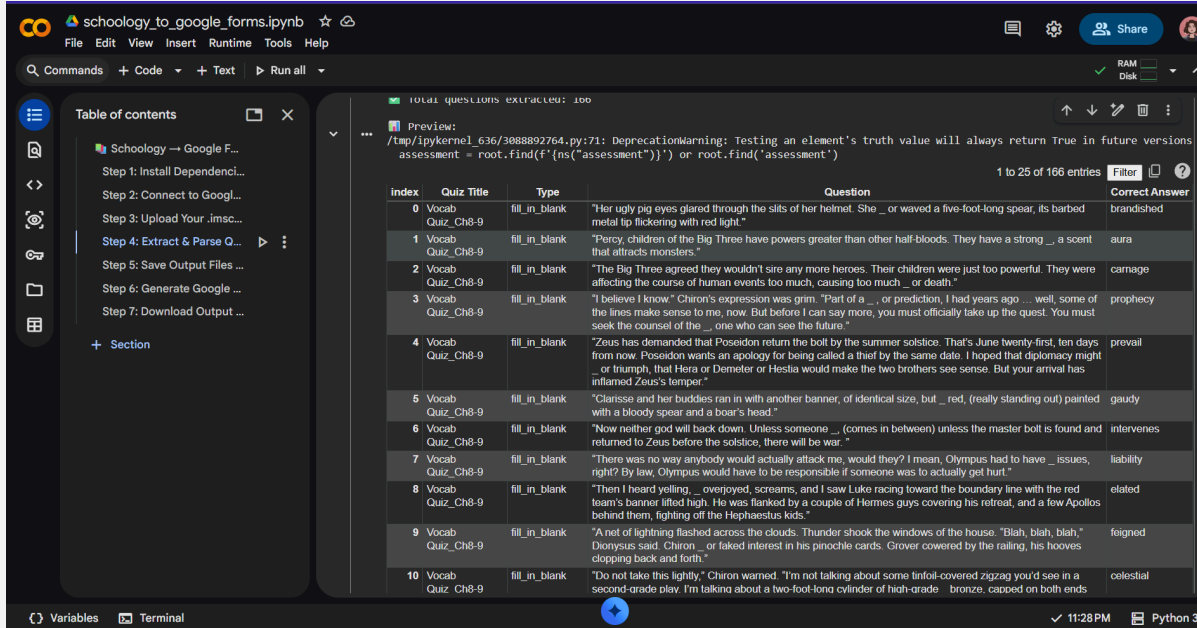

1. You may receive a warning that this file was made by a different user (Mary Ganey, maryganey188@gmail.com or marganey@iu.edu), and will ask you to trust the file. You are able to trust this file- hit continue.
2. Find the cell labeled Step 2: Install Dependencies.
3. Wait for it to finish. You will see Done when it is complete.
4. This step sets up the tools the converter needs. It only takes about 30 seconds.

Step 3: Upload your .imscc file

1. Find the cell labeled Step 3: Upload Your .imscc File.
2. A Browse button appears in the code, click it.
3. Navigate to your Downloads folder and select the .imscc file from Schoology.
4. Click Open. The file will upload automatically.
5. Wait until you see the message: Loaded: your-quiz-name.imscc

Step 4: Run the conversion

1. Find the cell labeled Step 4: Extract and Parse Questions.
2. The tool will read your quiz and extract all questions. This usually takes 10-20 seconds.
3. When finished, you will see a table showing all the questions it found.
4. Check the table to make sure your questions look correct.

The screenshot shows a Jupyter Notebook titled 'schoology_to_google_forms.ipynb'. The left sidebar contains a 'Table of contents' with steps 1 through 7. Step 4, 'Extract & Parse Q...', is selected. The main area displays a table of 10 extracted questions. The table has columns: index, Quiz Title, Type, Question, and Correct Answer. The questions are fill-in-the-blank type and relate to a quiz about Greek mythology.

index	Quiz Title	Type	Question	Correct Answer
0	Vocab Quiz_Ch8-9	fill_in_blank	"Her ugly pig eyes glared through the slits of her helmet. She _ or waved a five-foot-long spear, its barbed metal tip flickering with red light."	brandished
1	Vocab Quiz_Ch8-9	fill_in_blank	"Percy, children of the Big Three have powers greater than other half bloods. They have a strong _ a scent that attracts monsters."	aura
2	Vocab Quiz_Ch8-9	fill_in_blank	"The Big Three agreed they wouldn't sire any more heroes. Their children were just too powerful. They were affecting the course of human events too much, causing too much _ or death."	carriage
3	Vocab Quiz_Ch8-9	fill_in_blank	"I believe I know," Chiron's expression was grim. "Part of a _ or prediction, I had years ago _ well, some of the lines make sense to me, now. But before I can say more, you must officially take up the quest. You must seek the counsel of the _ one who can see the future."	prophecy
4	Vocab Quiz_Ch8-9	fill_in_blank	"Zeus has demanded that Poseidon return the bolt by the summer solstice. That's June twenty-first, ten days from now. Poseidon wants an apology for being called a thief by the same date. I hoped that diplomacy might _ or triumph, that Hera or Demeter or Hestia would make the two brothers see sense. But your arrival has inflamed Zeus's temper."	prevail
5	Vocab Quiz_Ch8-9	fill_in_blank	"Clarisse and her buddies ran in with another banner, of identical size, but _ red, (really standing out) painted with a bloody spear and a boar's head."	gaudy
6	Vocab Quiz_Ch8-9	fill_in_blank	"Now neither god will back down. Unless someone _ (comes in between) unless the master bolt is found and returned to Zeus before the solstice, there will be war."	intervenes
7	Vocab Quiz_Ch8-9	fill_in_blank	"There was no way anybody would actually attack me, would they? I mean, Olympus had to have _ issues, right? By law, Olympus would have to be responsible if someone was to actually get hurt."	liability
8	Vocab Quiz_Ch8-9	fill_in_blank	"Then I heard yelling, _ overjoyed, screams, and I saw Luke racing toward the boundary line with the red team's banner lifted high. He was flanked by a couple of Hermes guys covering his retreat, and a few Apollos behind them, fighting off the Hephaestus kids."	elated
9	Vocab Quiz_Ch8-9	fill_in_blank	"A net of lightning flashed across the clouds. Thunder shook the windows of the house. "Blah, blah, blah," Dionysus said. Chiron _ or laked interest in his pinocle cards. Grover covered by the railing, his hooves clapping back and forth."	feigned
10	Vocab Quiz_Ch8-9	fill_in_blank	"Do not take this lightly," Chiron warned. "I'm not talking about some tinfol-covered zigzag you'd see in a second-grade play. I'm talking about a two-foot-long cylinder of high-grade _ bronze, capped on both ends"	celestial

TIP

If the table shows 0 questions, double-check that you exported the right file from Schoology and that it ends in .imsc, not .zip or .pdf.

Step 5: Generate the Google Form script

1. Find the cell labeled Step 5: Generate Apps Script.
2. This creates a small script file that will build your Google Form quiz automatically.
3. Your output files (including the script) will be saved to your Google Drive folder automatically.

Step 6: Download your output files

1. Find the cell labeled Step 6: Download Output Files.
2. Three files will download to your computer:

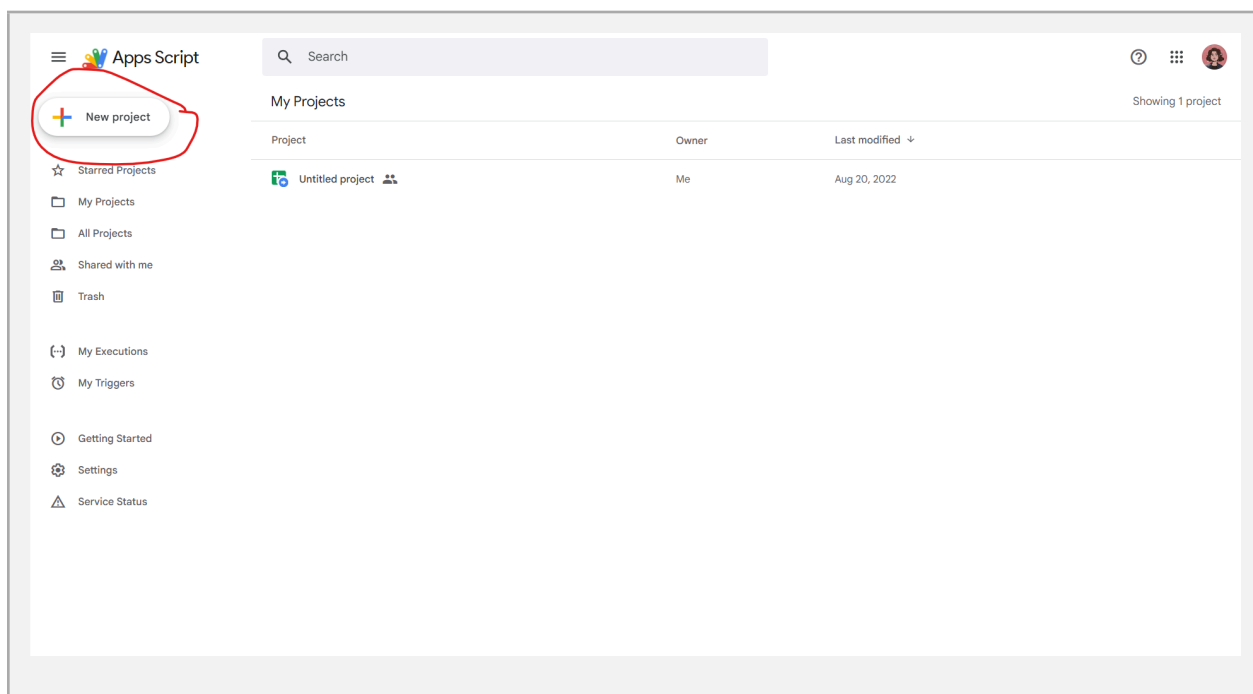

3. quiz_output.xlsx : a spreadsheet of all questions (good for reviewing)
4. quiz_output.csv : a plain-text version of the same data
5. create_google_forms.gs : the script that creates your Google Form

Part 4: Create Your Google Form Quiz

Now you will use the generated script to automatically build your Google Form quiz.

Step 1: Open Google Apps Script

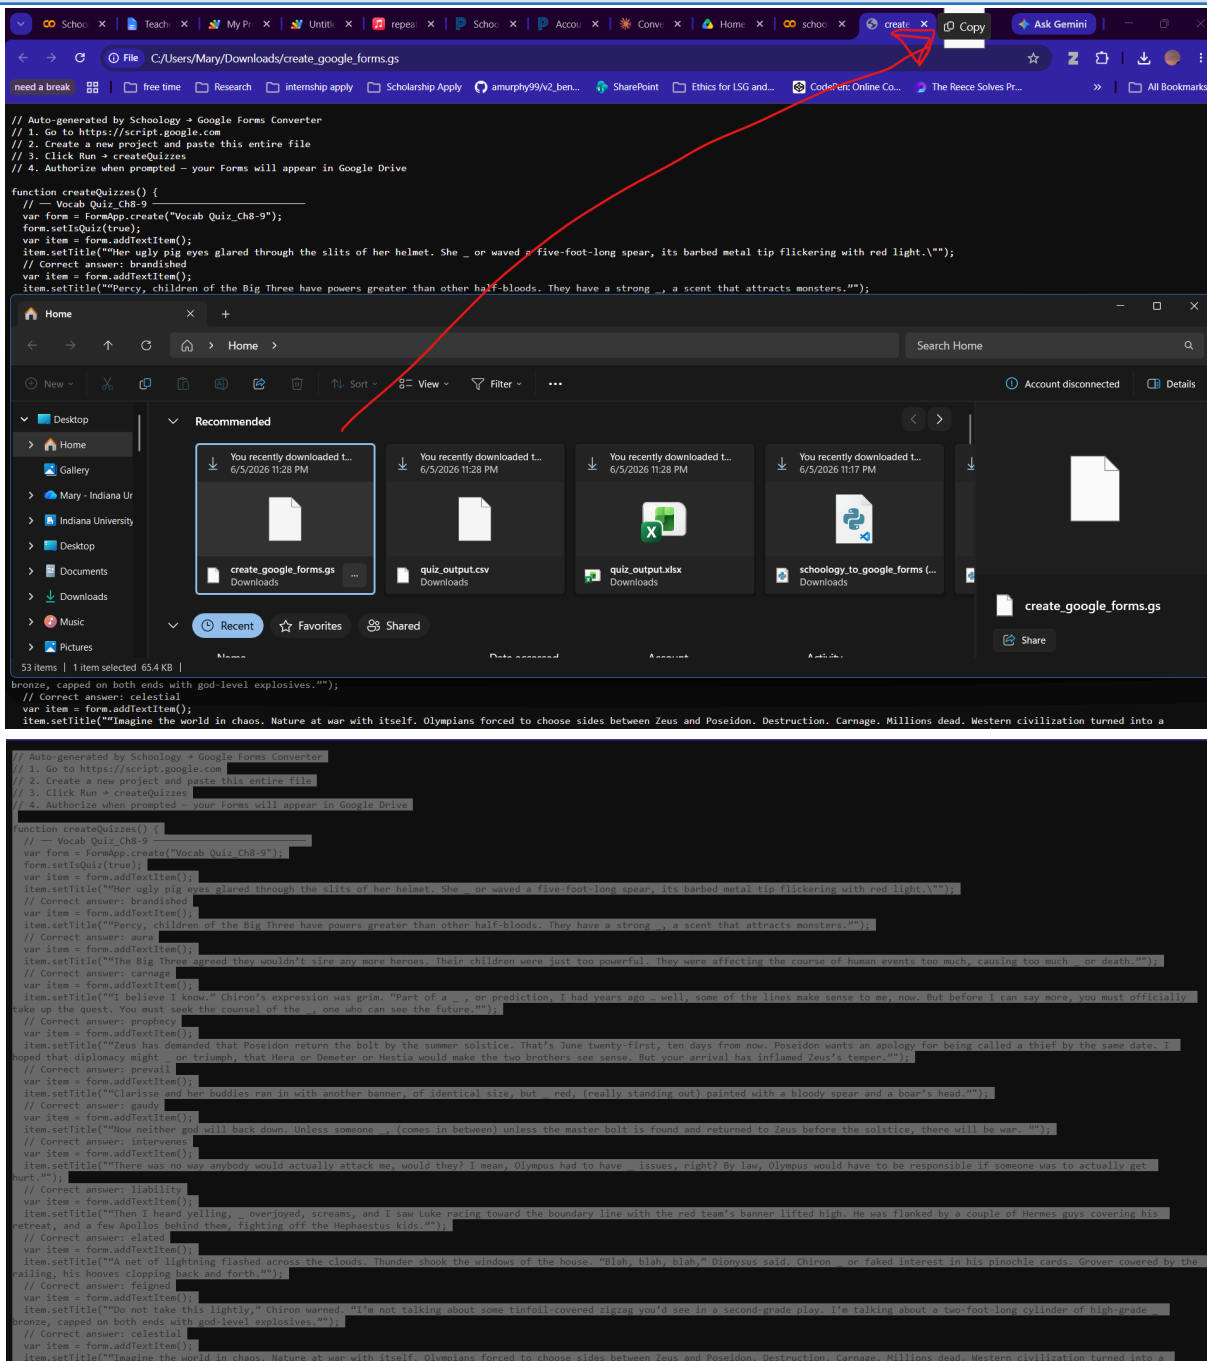

1. Go to <https://script.google.com> in your browser.
2. Sign in with your Google account if prompted.
3. Click the New project button (top left).

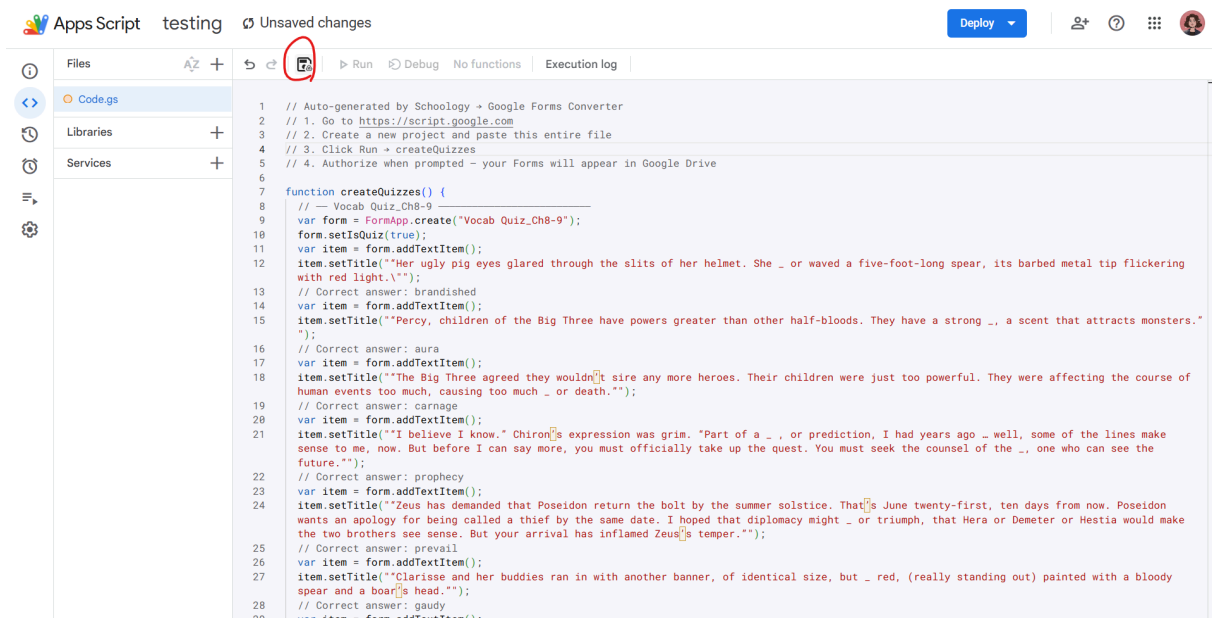

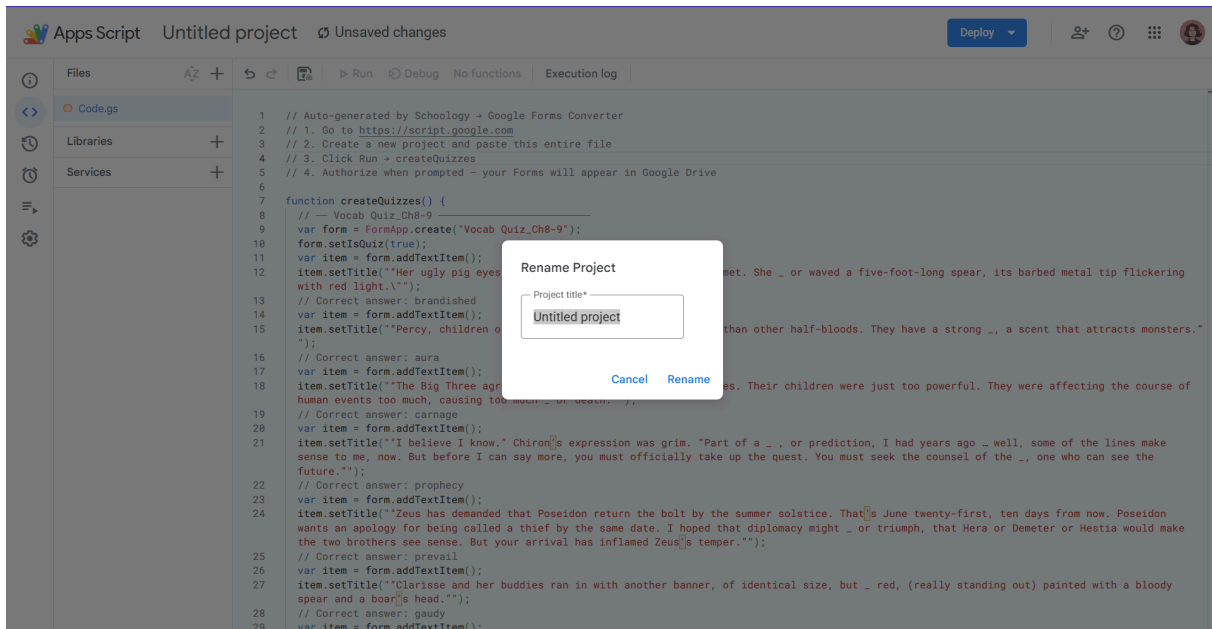

Step 2: Paste in the script

1. In the new project, you will see an empty code editor.
2. Open the file named create_google_forms.gs that you downloaded in Part 3, Step 6.
3. Drag the downloaded file to your chrome tab.
4. Back in the Apps Script editor, select all the existing text and delete it.
5. Paste in the copied script.

6. Save the file with a name (can always hit control+s or the save-to-drive button if you are unsure if the file saved).

Step 3: Run the script

1. At the top of the editor, make sure the dropdown next to the Run button says createQuizzes.
2. Click the Run button (▶).
3. A pop-up will ask you to review permissions. Click Review Permissions.
4. Choose your Google account and click Allow.
5. The script will run. When finished, you will see Execution completed at the bottom.

The top screenshot shows the Google Apps Script editor interface. The 'Run' button and the 'createQuizzes' dropdown menu are circled in red. The code in the editor is as follows:

```

1 // Auto-generated by Schoology - Google Forms Converter
2 // 1. Go to https://script.google.com
3 // 2. Create a new project and paste this entire file
4 // 3. Click Run - createQuizzes
5 // 4. Authorize when prompted - your Forms will appear in Google Drive
6
7 function createQuizzes() {
8   // -- Vocab Quiz_Ch8-9
9   var form = FormApp.create("Vocab Quiz_Ch8-9");
10  form.setIsQuiz(true);
11  var item = form.addTextItem();
12  item.setTitle("Her ugly pig eyes glared through the slits of her helmet. She _ or waved a five-foot-long spear, its barbed metal tip flickering with red light.");
13  // Correct answer: brandished
14  var item = form.addTextItem();
15  item.setTitle("Percy, children of the Big Three have powers greater than other half-bloods. They have a strong _, a scent that attracts monsters.");
16  // Correct answer: aura
17  var item = form.addTextItem();
18  item.setTitle("The Big Three agreed they wouldn't sire any more heroes. Their children were just too powerful. They were affecting the course of human events too much, causing too much _ or death.");
19  // Correct answer: carnage
20  var item = form.addTextItem();
21  item.setTitle("I believe I know." Chiron's expression was grim. "Part of a _, or prediction, I had years ago _ well, some of the lines make sense to me, now. But before I can say more, you must officially take up the quest. You must seek the counsel of the _, one who can see the future.");
22  // Correct answer: prophecy
23  var item = form.addTextItem();
24  item.setTitle("Zeus has demanded that Poseidon return the bolt by the summer solstice. That's June twenty-first, ten days from now. Poseidon wants an apology for being called a thief by the same date. I hoped that diplomacy might _ or triumph, that Hera or Demeter or Hestia would make the two brothers see sense. But your arrival has inflamed Zeus's temper.");
25  // Correct answer: prevail
26  var item = form.addTextItem();
27  item.setTitle("Clarisse and her buddies ran in with another banner, of identical size, but _ red, (really standing out) painted with a bloody spear and a boar's head.");
28  // Correct answer: gaudy
29  var item = form.addTextItem();

```

The bottom screenshot shows the same interface with an 'Authorization required' dialog box in the center. The dialog box contains the text: 'This app might not work as expected without providing all requested permissions.' and two buttons: 'Cancel' and 'Review permissions'.

Step 4: Find your new Google Form

1. Open Google Drive (drive.google.com).
2. Your new quiz form will appear in the main My Drive section.
3. Open it, and you should see all your questions already filled in.
4. You can now assign it in Google Classroom just like any other Google Form.

Apps Script testing Deploy + ? ⋮ 👤

Files Az + Code.gs Libraries + Services +

```

4 // 3. Click Run -> createQuizzes
5 // 4. Authorize when prompted - your Forms will appear in Google Drive
6

✓ NOTE

Your questions are imported but you may want to review the point values and grading settings in Google Forms before assigning the quiz to students. Open the quiz, go to the Responses tab, and click the Settings gear icon to configure grading.

Troubleshooting

The tool shows 0 questions found

Make sure the file you uploaded ends in .imsc. If you see .zip, the file may not have been exported correctly from Schoology. Try the export steps in Part 1 again.

I see an error message in a red box

Red error boxes in Colab usually mean a step was skipped. Try running each step from the top again, in order. You can restart the entire process by clicking Runtime → Restart and run all from the Colab menu.

My files are not appearing in Google Drive

Make sure Step 1 (Connect to Google Drive) completed successfully with a green checkmark. If not, run it again and click Allow when the permission pop-up appears.

The Google Form looks incomplete or has missing questions

Open the quiz_output.xlsx file that was downloaded. If the questions are all there in the spreadsheet, the issue is with the Apps Script step. Feel free to send me the file and share the .xlsx file so they can check the data.

I accidentally closed the tab

No problem. Go to drive.google.com, open the Colab Notebooks folder, and re-open your copy of the notebook. All your settings and output files are saved in your Drive.

TIP

If you reach out, it helps to include a screenshot of any error message you see, or attach the quiz_output.xlsx file so we can investigate quickly.

End of Guide
